

Loch Toftingall Wind Farm

Community Open Days

To find out more about the proposal for a wind energy development at Loch Toftingall, comprising 2 wind turbines to a maximum 149.9m to tip and a 40MW battery storage system situated to the west of Loch Toftingall, south of Spittal, the project team invite you to our Community Open Days:

Spittal Community Hall

Tuesday 31st January, 1.30-7.30pm

Watten Village Hall

Wednesday 1st February, 1.30-7.30pm

This round of open days will give local residents the chance to view, comment on and question the proposals. All open day material will be on the project website from the 10th January. It should be noted that comments made to the team are not representations to the planning authority. Should an application be submitted, there will be an opportunity to make formal representations on the application to the planning authority at that time.

For more information or to submit a comment by 10th February:

Another two giant turbines are being proposed to go up on "wind mill alley" in Caithness, aka the Causewaymire.

The stretch of moorland off the A9 between Latheron and Roadside has become a hotspot for developers, with a clutch of schemes up and running or in the offing.

The Causewaymire is already home to a number of wind turbines. Picture: Alan Hendry

Infinergy Ltd – part of the Boralex conglomerate – is behind the latest venture earmarked to go on land west of Toftingall Loch, south of Spittal.

The turbines would stand 149.5 metres tall, have a total potential output of 7.2 megawatts of electricity and be linked to a sub-station and battery storage system.

Locals are being given a chance to view and comment on the plans at exhibitions being held in Spittal community hall on January 31 and Watten community hall on February 1. Each session runs between 1.30 and 7.30pm.
